

**CTCF polyclonal antibody**

version number: GHS 1.0

date of compilation: 2019-12-02

**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

**1.1 product identifier**

|                             |                                 |
|-----------------------------|---------------------------------|
| trade name                  | <b>CTCF polyclonal antibody</b> |
| registration number (REACH) | not relevant (mixture)          |
| product code(s)             | C15410210                       |

**1.2 relevant identified uses of the substance or mixture and uses advised against**

|                          |   |
|--------------------------|---|
| relevant identified uses | for research use only, not for use in diagnostic or therapeutic procedures. |
|--------------------------|---|

**1.3 details of the supplier of the safety data sheet**

Diagenode SA  
LIEGE SCIENCE PARK Rue du Bois Saint-Jean, 3  
4102 Seraing  
Belgium

telephone: +32 4 364 20 50  
e-mail: info@diagenode.com

**1.4 emergency telephone number**

|                               |  |
|-------------------------------|--|
| emergency information service | +32 4 364 20 50<br>this number is only available during the following of-<br>fice hours: Mon-Fri 09:00 AM - 05:00 PM |
|-------------------------------|--|

| poison centre  |                                      |           |
|----------------|--------------------------------------|-----------|
| country        | name                                 | telephone |
| United Kingdom | National Poisons Information Service | 111       |

**SECTION 2: Hazards identification**

**2.1 classification of the substance or mixture**

classification according to Regulation (EC) No 1272/2008 (CLP)

| section | hazard class       | category | hazard class and category | hazard statement |
|---------|--------------------|----------|---------------------------|------------------|
| 3.4S    | skin sensitisation | 1        | Skin Sens. 1              | H317             |

for full text of abbreviations: see SECTION 16.

**2.2 label elements**

labelling according to Regulation (EC) No 1272/2008 (CLP)

- signal word warning

- pictograms

GHS07

- hazard statements

H317 may cause an allergic skin reaction.

## CTCF polyclonal antibody

version number: GHS 1.0

date of compilation: 2019-12-02

- precautionary statements
  - P261 avoid breathing dust/fume/gas/mist/vapours/spray.
  - P280 wear protective gloves/protective clothing/eye protection/face protection.
  - P321 specific treatment (see on this label).
  - P333+P313 if skin irritation or rash occurs: Get medical advice/attention.
  - P362+P364 take off contaminated clothing and wash it before reuse.
  - P501 dispose of contents/container to industrial combustion plant.

- hazardous ingredients for labelling proclin 300

### 2.3 other hazards

results of PBT and vPvB assessment  
this mixture does not contain any substances that are assessed to be a PBT or a vPvB.

## SECTION 3: Composition/information on ingredients

### 3.1 substances

not relevant (mixture)

### 3.2 mixtures

description of the mixture

This product is composed of antibodies in aqueous buffer solution. It contains 0.05% sodium azide and 0,05% ProClin™ 300 as preservative.

| name of substance | identifier   | wt%  | classification acc. to GHS  | pictograms  |
|-------------------|--|------|---|---|
| proclin 300       | CAS No<br>55965-84-9<br><br>index No<br>613-167-00-5<br><br>REACH Reg. No<br>01-2120764691-48-xxxx | 0.05 | Acute Tox. 3 / H301<br>Acute Tox. 3 / H311<br>Acute Tox. 3 / H331<br>Skin Corr. 1B / H314<br>Eye Dam. 1 / H318<br>Skin Sens. 1 / H317<br>Aquatic Acute 1 / H400<br>Aquatic Chronic 1 / H410 |  |

for full text of abbreviations: see SECTION 16.

## SECTION 4: First aid measures

### 4.1 description of first aid measures

general notes

do not leave affected person unattended. remove victim out of the danger area. keep affected person warm, still and covered. take off immediately all contaminated clothing. in all cases of doubt, or when symptoms persist, seek medical advice. in case of unconsciousness place person in the recovery position. Never give anything by mouth.

following inhalation

if breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. provide fresh air.

following skin contact

wash with plenty of soap and water.

following eye contact

remove contact lenses, if present and easy to do. Continue rinsing. irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

following ingestion

rinse mouth with water (only if the person is conscious). do NOT induce vomiting.

### 4.2 most important symptoms and effects, both acute and delayed

symptoms and effects are not known to date.

## CTCF polyclonal antibody

version number: GHS 1.0

date of compilation: 2019-12-02

### 4.3 indication of any immediate medical attention and special treatment needed

none

## SECTION 5: Firefighting measures

### 5.1 extinguishing media

suitable extinguishing media

water spray, BC-powder, carbon dioxide (CO<sub>2</sub>)

unsuitable extinguishing media

water jet

### 5.2 special hazards arising from the substance or mixture

hazardous combustion products

nitrogen oxides (NO<sub>x</sub>)

### 5.3 advice for firefighters

in case of fire and/or explosion do not breathe fumes. co-ordinate firefighting measures to the fire surroundings. do not allow firefighting water to enter drains or water courses. collect contaminated firefighting water separately. fight fire with normal precautions from a reasonable distance.

## SECTION 6: Accidental release measures

### 6.1 personal precautions, protective equipment and emergency procedures

for non-emergency personnel

remove persons to safety.

for emergency responders

wear breathing apparatus if exposed to vapours/dust/spray/gases.

### 6.2 environmental precautions

keep away from drains, surface and ground water. retain contaminated washing water and dispose of it.

### 6.3 methods and material for containment and cleaning up

advice on how to contain a spill

covering of drains

advice on how to clean up a spill

wipe up with absorbent material (e.g. cloth, fleece). collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

appropriate containment techniques

use of adsorbent materials.

other information relating to spills and releases

place in appropriate containers for disposal. ventilate affected area.

### 6.4 reference to other sections

hazardous combustion products: see section 5. personal protective equipment: see section 8. incompatible materials: see section 10. disposal considerations: see section 13.

## CTCF polyclonal antibody

version number: GHS 1.0

date of compilation: 2019-12-02

### SECTION 7: Handling and storage

#### 7.1 precautions for safe handling

recommendations

- measures to prevent fire as well as aerosol and dust generation  
use local and general ventilation. use only in well-ventilated areas.

advice on general occupational hygiene

wash hands after use. do not eat, drink and smoke in work areas. remove contaminated clothing and protective equipment before entering eating areas. never keep food or drink in the vicinity of chemicals. never place chemicals in containers that are normally used for food or drink. keep away from food, drink and animal feedingstuffs.

#### 7.2 conditions for safe storage, including any incompatibilities

control of effects

protect against external exposure, such as  
frost

#### 7.3 specific end use(s)

see section 16 for a general overview.

### SECTION 8: Exposure controls/personal protection

#### 8.1 control parameters

this information is not available.

relevant DNELs of components of the mixture

| name of substance | CAS No     | endpoint | threshold level        | protection goal, route of exposure | used in           | exposure time           |
|-------------------|------------|----------|------------------------|------------------------------------|-------------------|-------------------------|
| proclin 300       | 55965-84-9 | DNEL     | 0.02 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | chronic - local effects |
| proclin 300       | 55965-84-9 | DNEL     | 0.04 mg/m <sup>3</sup> | human, inhalatory                  | worker (industry) | acute - local effects   |

relevant PNECs of components of the mixture

| name of substance | CAS No     | endpoint | threshold level | organism              | environmental compartment    | exposure time                |
|-------------------|------------|----------|-----------------|-----------------------|------------------------------|------------------------------|
| proclin 300       | 55965-84-9 | PNEC     | 3.39 µg/l       | aquatic organisms     | freshwater                   | short-term (single instance) |
| proclin 300       | 55965-84-9 | PNEC     | 3.39 µg/l       | aquatic organisms     | marine water                 | short-term (single instance) |
| proclin 300       | 55965-84-9 | PNEC     | 0.23 mg/l       | aquatic organisms     | sewage treatment plant (STP) | short-term (single instance) |
| proclin 300       | 55965-84-9 | PNEC     | 0.027 mg/kg     | aquatic organisms     | freshwater sediment          | short-term (single instance) |
| proclin 300       | 55965-84-9 | PNEC     | 0.027 mg/kg     | aquatic organisms     | marine sediment              | short-term (single instance) |
| proclin 300       | 55965-84-9 | PNEC     | 0.01 mg/kg      | terrestrial organisms | soil                         | short-term (single instance) |

**CTCF polyclonal antibody**

version number: GHS 1.0

date of compilation: 2019-12-02

**8.2 exposure controls**

appropriate engineering controls

general ventilation.

individual protection measures (personal protective equipment)

eye/face protection

wear eye/face protection.

skin protection

- hand protection

wear suitable gloves. chemical protection gloves are suitable, which are tested according to EN 374. check leak-tightness/ impermeability prior to use. in the case of wanting to use the gloves again, clean them before taking off and air them well. for special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- other protection measures

take recovery periods for skin regeneration. preventive skin protection (barrier creams/ointments) is recommended. wash hands thoroughly after handling.

respiratory protection

in case of inadequate ventilation wear respiratory protection.

environmental exposure controls

use appropriate container to avoid environmental contamination. keep away from drains, surface and ground water.

**SECTION 9: Physical and chemical properties**

**9.1 information on basic physical and chemical properties**

**appearance**

|                |            |
|----------------|------------|
| physical state | liquid     |
| colour         | colourless |
| odour          | odourless  |

**other safety parameters**

|   |                       |
|---|-----------------------|
| pH (value)                              | not determined        |
| melting point/freezing point            | not determined        |
| initial boiling point and boiling range | not determined        |
| flash point                             | not determined        |
| evaporation rate                        | not determined        |
| flammability (solid, gas)               | not relevant, (fluid) |
| explosive limits                        | not determined        |
| vapour pressure                         | not determined        |
| density                                 | not determined        |

**CTCF polyclonal antibody**

version number: GHS 1.0

date of compilation: 2019-12-02

|                              |   |
|------------------------------|---|
| vapour density               | this information is not available             |
| relative density             | information on this property is not available |
| solubility(ies)              | not determined                                |
| partition coefficient        |   |
| - n-octanol/water (log KOW)  | this information is not available             |
| auto-ignition temperature    | not determined                                |
| viscosity                    | not determined                                |
| explosive properties         | none  |
| oxidising properties         | none  |
| <b>9.2 other information</b> | there is no additional information            |

**SECTION 10: Stability and reactivity**

**10.1 reactivity**

concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

**10.2 chemical stability**

see below "Conditions to avoid".

**10.3 possibility of hazardous reactions**

no known hazardous reactions.

**10.4 conditions to avoid**

there are no specific conditions known which have to be avoided.

**10.5 incompatible materials**

there is no additional information.

**10.6 hazardous decomposition products**

reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. hazardous combustion products: see section 5.

**SECTION 11: Toxicological information**

**11.1 information on toxicological effects**

test data are not available for the complete mixture.

classification procedure

the method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**classification according to GHS (1272/2008/EC, CLP)**

acute toxicity

shall not be classified as acutely toxic.

skin corrosion/irritation

shall not be classified as corrosive/irritant to skin.

## CTCF polyclonal antibody

version number: GHS 1.0

date of compilation: 2019-12-02

serious eye damage/eye irritation

shall not be classified as seriously damaging to the eye or eye irritant.

respiratory or skin sensitisation

may cause an allergic skin reaction.

germ cell mutagenicity

shall not be classified as germ cell mutagenic.

carcinogenicity

shall not be classified as carcinogenic.

reproductive toxicity

shall not be classified as a reproductive toxicant.

specific target organ toxicity - single exposure

shall not be classified as a specific target organ toxicant (single exposure).

specific target organ toxicity - repeated exposure

shall not be classified as a specific target organ toxicant (repeated exposure).

aspiration hazard

shall not be classified as presenting an aspiration hazard.

### SECTION 12: Ecological information

#### 12.1 toxicity

shall not be classified as hazardous to the aquatic environment.

#### 12.2 persistence and degradability

data are not available.

#### 12.3 bioaccumulative potential

data are not available.

#### 12.4 mobility in soil

data are not available.

#### 12.5 results of PBT and vPvB assessment

data are not available.

#### 12.6 other adverse effects

data are not available.

### SECTION 13: Disposal considerations

#### 13.1 waste treatment methods

sewage disposal-relevant information

do not empty into drains. avoid release to the environment. Refer to special instructions/safety data sheets.

waste treatment of containers/packagings

completely emptied packages can be recycled. handle contaminated packages in the same way as the substance itself.

#### remarks

please consider the relevant national or regional provisions. waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

**CTCF polyclonal antibody**

version number: GHS 1.0

date of compilation: 2019-12-02

**SECTION 14: Transport information**

- 14.1 **UN number** not subject to transport regulations
- 14.2 **UN proper shipping name** not relevant
- 14.3 **transport hazard class(es)** not assigned
- 14.4 **packing group** not assigned
- 14.5 **environmental hazards** non-environmentally hazardous acc. to the dangerous goods regulations
- 14.6 **special precautions for user**  
there is no additional information.
- 14.7 **transport in bulk according to Annex II of MARPOL and the IBC Code**  
the cargo is not intended to be carried in bulk.

**Information for each of the UN Model Regulations**

**transport of dangerous goods by road, rail and inland waterway (ADR/RID/ADN)**

not subject to ADR. not subject to RID.

**European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways (ADN)**

- identifier number 9006
- proper shipping name ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
- class 9
- number of cones/blue lights 0

**International Maritime Dangerous Goods Code (IMDG)**

not subject to IMDG.

**International Civil Aviation Organization (ICAO-IATA/DGR)**

not subject to ICAO-IATA.

**SECTION 15: Regulatory information**

- 15.1 **safety, health and environmental regulations/legislation specific for the substance or mixture**
- 15.2 **Chemical Safety Assessment**  
chemical safety assessments for substances in this mixture were not carried out.

**SECTION 16: Other information**

**abbreviations and acronyms**

| abbr.      | descriptions of used abbreviations  |
|------------|---|
| Acute Tox. | Acute toxicity  |
| ADN        | Accord européen relatif au transport international des marchandises dangereuses par voies de navigation intérieures (European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways) |
| ADR        | Accord européen relatif au transport international des marchandises dangereuses par route (European Agreement concerning the International Carriage of Dangerous Goods by Road)                                       |

### key literature references and sources for data

Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures. Regulation (EC) No. 1907/2006 (REACH), amended by 2015/830/EU.

transport of dangerous goods by road, rail and inland waterway (ADR/RID/ADN). International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for the air transport (IATA).

### classification procedure

physical and chemical properties: the classification is based on tested mixture.

health hazards, environmental hazards: the method for classification of the mixture is based on ingredients of the mixture (additivity formula).

**CTCF polyclonal antibody**

version number: GHS 1.0

date of compilation: 2019-12-02

**list of relevant phrases (code and full text as stated in chapter 2 and 3)**

| <b>code</b> | <b>text</b>   |
|-------------|---|
| H301        | Toxic if swallowed.                                   |
| H311        | Toxic in contact with skin.                           |
| H314        | Causes severe skin burns and eye damage.              |
| H317        | May cause an allergic skin reaction.                  |
| H318        | Causes serious eye damage.                            |
| H331        | Toxic if inhaled.                                     |
| H400        | Very toxic to aquatic life.                           |
| H410        | Very toxic to aquatic life with long lasting effects. |

**disclaimer**
