

## rabbit IgG

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### SECTION 1: Identification

#### 1.1 product identifier

trade name **rabbit IgG**  
product code(s) C15410206

#### 1.2 relevant identified uses of the substance or mixture and uses advised against

relevant identified uses for research use only, not for use in diagnostic or therapeutic procedures.

#### 1.3 details of the supplier of the safety data sheet

Diagenode SA  
LIEGE SCIENCE PARK Rue du Bois Saint-Jean, 3  
4102 Seraing  
Belgium

telephone: +32 4 364 20 50  
e-mail: info@diagenode.com

#### 1.4 emergency telephone number

emergency information service +32 4 364 20 50  
this number is only available during the following of-  
fice hours: Mon-Fri 09:00 AM - 05:00 PM

| poison center |                                                |                |
|---------------|------------------------------------------------|----------------|
| country       | name                                           | telephone      |
| United States | American Association of Poison Control Centers | 1-800-222-1222 |

### SECTION 2: Hazard(s) identification

#### 2.1 classification of the substance or mixture

classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)  
this mixture does not meet the criteria for classification.

#### 2.2 label elements

labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)  
not required

#### 2.3 other hazards

results of PBT and vPvB assessment  
does not contain a PBT-/vPvB-substance in a concentration of  $\geq$  0,1%.  
endocrine disrupting properties  
does not contain an endocrine disruptor (EDC) in a concentration of  $\geq$  0,1%.

## rabbit IgG

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### SECTION 3: Composition/information on ingredients

#### 3.1 substances

not relevant (mixture)

#### 3.2 mixtures

description of the mixture

This mixture does not contain any potentially hazardous products.

It contains 0,02% sodium azide as preservative.

### SECTION 4: First-aid measures

#### 4.1 description of first-aid measures

general notes

do not leave affected person unattended. remove victim out of the danger area. keep affected person warm, still and covered. take off immediately all contaminated clothing. in all cases of doubt, or when symptoms persist, seek medical advice. in case of unconsciousness place person in the recovery position. Never give anything by mouth.

following inhalation

if breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. provide fresh air.

following skin contact

wash with plenty of soap and water.

following eye contact

remove contact lenses, if present and easy to do. Continue rinsing. irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

following ingestion

rinse mouth with water (only if the person is conscious). do NOT induce vomiting.

#### 4.2 most important symptoms and effects, both acute and delayed

symptoms and effects are not known to date.

#### 4.3 indication of any immediate medical attention and special treatment needed

none

### SECTION 5: Fire-fighting measures

#### 5.1 extinguishing media

suitable extinguishing media

water spray, BC-powder, carbon dioxide (CO2)

unsuitable extinguishing media

water jet

#### 5.2 special hazards arising from the substance or mixture

hazardous combustion products

nitrogen oxides (NOx)

#### 5.3 advice for firefighters

in case of fire and/or explosion do not breathe fumes. coordinate firefighting measures to the fire surroundings. collect contaminated firefighting water separately. fight fire with normal precautions from a reasonable distance.

## **rabbit IgG**

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### **SECTION 6: Accidental release measures**

#### **6.1 personal precautions, protective equipment and emergency procedures**

for non-emergency personnel

remove persons to safety.

for emergency responders

wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

#### **6.2 environmental precautions**

keep away from drains, surface and ground water. retain contaminated washing water and dispose of it.

#### **6.3 methods and material for containment and cleaning up**

advice on how to contain a spill

covering of drains

advice on how to clean up a spill

wipe up with absorbent material (e.g. cloth, fleece). collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

appropriate containment techniques

use of adsorbent materials.

other information relating to spills and releases

place in appropriate containers for disposal. ventilate affected area.

#### **6.4 reference to other sections**

hazardous combustion products: see section 5. personal protective equipment: see section 8. incompatible materials: see section 10. disposal considerations: see section 13.

### **SECTION 7: Handling and storage**

#### **7.1 precautions for safe handling**

recommendations

- measures to prevent fire as well as aerosol and dust generation

use local and general ventilation. use only in well-ventilated areas.

advice on general occupational hygiene

wash hands after use. do not eat, drink and smoke in work areas. remove contaminated clothing and protective equipment before entering eating areas. never keep food or drink in the vicinity of chemicals. never place chemicals in containers that are normally used for food or drink. keep away from food, drink and animal feedingstuffs.

#### **7.2 conditions for safe storage, including any incompatibilities**

control of the effects

protect against external exposure, such as

frost

#### **7.3 specific end use(s)**

see section 16 for a general overview.

## rabbit IgG

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### SECTION 8: Exposure controls/personal protection

#### 8.1 control parameters

| occupational exposure limit values (Workplace Exposure Limits) |                      |         |            |           |                          |            |                           |                 |                                |          |                  |

##### notation

Ceiling-C  
dust

ceiling value is a limit value above which exposure should not occur as dust

i

inhalable fraction

r

respirable fraction

STEL

short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period (unless otherwise specified)

TWA

time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average (unless otherwise specified)

#### 8.2 exposure controls

appropriate engineering controls

general ventilation.

individual protection measures (personal protective equipment)

eye/face protection

wear eye/face protection.

skin protection

- hand protection

wear suitable gloves. chemical protection gloves are suitable, which are tested according to EN 374. check leak-tightness/impermeability prior to use. in the case of wanting to use the gloves again, clean them before taking off and air them well. for special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- other protection measures

take recovery periods for skin regeneration. preventive skin protection (barrier creams/ointments) is recommended. wash hands thoroughly after handling.

respiratory protection

in case of inadequate ventilation wear respiratory protection.

environmental exposure controls

use appropriate container to avoid environmental contamination. keep away from drains, surface and ground water.

replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### SECTION 9: Physical and chemical properties

#### 9.1 information on basic physical and chemical properties

##### appearance

|                |                       |
|----------------|-----------------------|
| physical state | liquid                |
| color          | colorless             |
| particle       | not relevant (liquid) |
| odor           | odorless              |

##### other safety parameters

|                                         |                                               |
|-----------------------------------------|-----------------------------------------------|
| pH (value)                              | not determined                                |
| melting point/freezing point            | not determined                                |
| initial boiling point and boiling range | not determined                                |
| flash point                             | not determined                                |
| evaporation rate                        | not determined                                |
| flammability (solid, gas)               | not relevant, (fluid)                         |
| vapor pressure                          | not determined                                |
| density                                 | not determined                                |
| vapor density                           | this information is not available             |
| relative density                        | information on this property is not available |
| solubility(ies)                         | not determined                                |

##### partition coefficient

|                             |                                   |
|-----------------------------|-----------------------------------|
| - n-octanol/water (log KOW) | this information is not available |
| auto-ignition temperature   | not determined                    |
| viscosity                   | not determined                    |
| explosive properties        | none                              |
| oxidizing properties        | none                              |

#### 9.2 other information

there is no additional information

## **rabbit IgG**

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### **SECTION 10: Stability and reactivity**

#### **10.1 reactivity**

concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

#### **10.2 chemical stability**

the material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

#### **10.3 possibility of hazardous reactions**

no known hazardous reactions.

#### **10.4 conditions to avoid**

there are no specific conditions known which have to be avoided.

#### **10.5 incompatible materials**

there is no additional information.

#### **10.6 hazardous decomposition products**

reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. hazardous combustion products: see section 5.

### **SECTION 11: Toxicological information**

#### **11.1 information on toxicological effects**

test data are not available for the complete mixture.

classification procedure

the method for classification of the mixture is based on ingredients of the mixture (additivity formula).

#### **classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)**

this mixture does not meet the criteria for classification.

acute toxicity

shall not be classified as acutely toxic.

skin corrosion/irritation

shall not be classified as corrosive/irritant to skin.

serious eye damage/eye irritation

shall not be classified as seriously damaging to the eye or eye irritant.

respiratory or skin sensitization

shall not be classified as a respiratory or skin sensitizer.

germ cell mutagenicity

shall not be classified as germ cell mutagenic.

carcinogenicity

shall not be classified as carcinogenic.

reproductive toxicity

shall not be classified as a reproductive toxicant.

specific target organ toxicity - single exposure

shall not be classified as a specific target organ toxicant (single exposure).

specific target organ toxicity - repeated exposure

shall not be classified as a specific target organ toxicant (repeated exposure).

## rabbit IgG

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

aspiration hazard  
shall not be classified as presenting an aspiration hazard.

### SECTION 12: Ecological information

#### 12.1 toxicity

shall not be classified as hazardous to the aquatic environment.

#### 12.2 persistence and degradability

data are not available.

#### 12.3 bioaccumulative potential

data are not available.

#### 12.4 mobility in soil

data are not available.

#### 12.5 results of PBT and vPvB assessment

according to the results of its assessment, this substance is not a PBT or a vPvB. does not contain a PBT-/vPvB-substance in a concentration of  $\geq 0,1\%$ .

#### 12.6 endocrine disrupting properties

does not contain an endocrine disruptor (EDC) in a concentration of  $\geq 0,1\%$ .

#### 12.7 other adverse effects

data are not available.

### SECTION 13: Disposal considerations

#### 13.1 waste treatment methods

sewage disposal-relevant information

do not empty into drains. avoid release to the environment. Refer to special instructions/safety data sheets.

waste treatment of containers/packages

completely emptied packages can be recycled. handle contaminated packages in the same way as the substance itself.

#### remarks

please consider the relevant national or regional provisions. waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

### SECTION 14: Transport information

|      |                              |                                                                       |
|------|------------------------------|-----------------------------------------------------------------------|
| 14.1 | UN number                    | not subject to transport regulations                                  |
| 14.2 | UN proper shipping name      | not relevant                                                          |
| 14.3 | transport hazard class(es)   | none                                                                  |
| 14.4 | packing group                | not assigned                                                          |
| 14.5 | environmental hazards        | non-environmentally hazardous acc. to the dangerous goods regulations |
| 14.6 | special precautions for user | there is no additional information.                                   |

## rabbit IgG

version number: GHS 2.0  
replaces version of: 2019-12-23 (GHS 1)

revision: 2023-02-28

### 14.7 transport in bulk according to IMO instruments

the cargo is not intended to be carried in bulk.

#### Information for each of the UN Model Regulations

##### transport of dangerous goods by road or rail (49 CFR US DOT) - additional information

not subject to transport regulations.

##### International Maritime Dangerous Goods Code (IMDG) - additional information

not subject to IMDG.

##### International Civil Aviation Organization (ICAO-IATA/DGR) - additional information

not subject to ICAO-IATA.

## SECTION 15: Regulatory information

### 15.1 safety, health and environmental regulations specific for the product in question
